Eye-Exams for Children at School

23rd September – 27th September 2024

Dear Parent/Guardian,

Mobileyes has partnered with us to bring its fully equipped Mobile Optometry Clinic and AHPRA registered optometrists to our school to conduct eye check-up.

The comprehensive eye check-up program is bulk billed (no gap) to Medicare. The examination includes:

- Clarity of vision assessment for Distance and Near
- Internal and external eye health assessment
- Eye co-ordination, binocular vision, Depth perception and colour vision assessment
- Testing Report sent to parents.

One in five Australian children suffers from an undetected vision problem or requires ongoing assessment. Good vision is important for a child's educational, behavioural and social development and to help them reach their full learning potential. Many children continue to experience undetected and unnecessary vision problems and often they assume that how they see is normal.

If you would like your child to undertake this great service at our school, please sign and return the attached consent form to the school office.

Alternatively, the form can be submitted online via

www.mobileyes.com.au/parent-guardian-consent

We would really like for our students to benefit from this service, so parents please take the time to fill the form.

Kind Regards,

Miss Martin
Principal
